Who Has the Greatest Number?

You will need a game board for each player and 4 sets of cards numbered 0 to 9. Shuffle the cards and place them face down.

- Each player makes a 3-digit number. Follow these steps.
 - Turn over the top card to show a number.
Write the number in a blank space in the top row of your game board.
 - Turn over a second and third number.
- Players read out the 3-digit numbers they have made.
- The player with the greatest number gets 1 point.
If 2 or more players have the same number, each player gets a point.
- Move to the next row of your game board.

Play until one of you reaches 5 points.

Play the game again.

This time, try to make the least number.
