

# Make Your Own Musical Instrument

Dear Parents,

To celebrate our Hearing and Sound Unit, the Gr. 3 students are encouraged to make, and present, an instrument, which changes in pitch (high and low) and volume (loud and soft).

I have put together a few ideas in this instrument package for the students to explore. You can also find LOTS of instruments ideas to make and invent on the Internet.

We will be giving students time to build their instruments in class. Therefore we ask that you help your child plan their instrument and provide them with the materials to build it. The instrument **plan sheet, and materials are due on Monday, February 8<sup>th</sup>.** *Please put the materials in a labeled bag.*

Please feel free to contact me if you have any questions regarding this activity.

Thank you!
